

JET MIXER TOP- | BOTTOM- | SIDE-MOUNTED

Processes: Batching tanks, emulsification, dispersion, dissolving powders in liquids, open process, sterile process

Viscosity range: 1 mPas to 20,000 mPas

Capacity range: 5 l to 200,000 l

Technical features

- **Supply systems:** TS-steam-condensate-system
- **Materials:** 1.4404 / seal SiC, carbon, EPDM
- **Surfaces:** Standard Ra < 1.6 µm ground / higher quality possible
- **Certificates / conformities:** FDA; EG 1935, 3.1, GMP-compliant, EHEDG-compliant
- **Sealing system:** Single and double-acting mechanical seal (optional: aseptic version possible)

Application areas

Food

Chemicals

Cosmetics

Pharmaceuticals

Special features

- Different installation positions possible (optimal installation position for each mixing volume)
- Short process times
- Good cleanability
- Open design
- Various versions of the jet basket possible (low to high shear rates)
- Special PRG motor design (rotor shaft motor, hollow shaft motor, IEC standard motor)
- Ultimate reliability

Agitator technology in perfection

More than 35 years of experience, innovative technologies and first-class consulting expertise: This mix has made PRG GmbH one of the world's leading suppliers of agitators and mixing units. Our products are used all over the world in a wide variety of industries – whether for cosmetics, chemicals, biotechnology, food, biogas or pharmaceuticals.

- Customised agitator technology
- Ultimate consulting expertise
- Very wide product range
- Detailed quality and precision
